B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with NAIC SAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

C. Accounting Policy

Premiums are earned over the terms of the related insurance policies and reinsurance contracts. Unearned premium reserves are established to cover the unexpired portion of premiums written. Such reserves are computed by pro rata methods for direct business and are based on reports sent to the Company's reinsurance companies.

Expenses incurred in connection with acquiring new insurance business, including such acquisition costs as sale commissions, are charged to operations as incurred. Expenses incurred are reduced for ceding allowances received or receivable.

In addition, the Company uses the following accounting policies:

- Short-term money market investments are stated at fair value. Short-term bond investments are stated at amortized cost.
- 2. Bonds with a NAIC rating 1 and 2 are stated at amortized cost using the interest method; all others are stated at the lower of amortized cost or fair value. For residential mortgage-backed securities (RMBS), commercial mortgage-backed securities (CMBS) and loan-backed and structured securities (LBASS), the NAIC has retained third-party investment management firms to assist in the determination of the appropriate NAIC designations and Book Adjusted Carrying Values based not only on the probability of loss, but also the severity of loss. Those RMBS, CMBS and LBASS securities that are not modeled but receive a current year Acceptable Rating Organizations (ARO) rating are subject to the Modified FE process which determines the appropriate NAIC designations and Book Adjusted Carrying Values.
- 3. The Company maintains an investment in properties held for the production of income. The properties are presented at cost, less accumulated depreciation, and are depreciated for financial statement purposes for a period based on their economic life.
- 4. The Company carries the intercompany collateralized notes receivable at book value.
- 5. The Company carries other loan receivables at cost.
- 6. Common stocks, exchange trade funds, other than investments in stocks of subsidiary and unaffiliated companies, are stated at fair value.
- 7. Investment grade redeemable preferred stocks are stated at amortized cost, others are carried at market.
- 8. The Company does not participate in mortgage loans as an investment vehicle.
- 9. Loan-backed securities are stated at either amortized cost or the lower of amortized cost or fair value. The retrospective adjustment method is used to value those securities.

- 10. The Company does not have any investments in any joint ventures, partnerships, or limited liability companies.
- 11. The Company does not utilize derivatives as an investment vehicle.
- 12. The Company does not factor anticipated investment income into the premium deficiency reserve.
- 13. Unpaid losses and loss adjustment expenses include an amount determined from individual case estimates and loss reports and an amount, based on past experience, for losses incurred but not reported. Such liabilities are necessarily based on assumptions and estimates and while management believes the amount is adequate, the ultimate liability may be in excess of or less than the amount provided. The methods for making such estimates and for establishing the resulting liability are continually reviewed and any adjustments are reflected in the period determined.
- 14. Non-Admitted Assets Certain assets designated as "non-admitted", in accordance with Statement of Statutory Accounting Principles (SSAP) No.4 Assets and Non-Admitted Assets, are excluded from the statutory balance sheet and such amounts are charged directly to unassigned funds.
- 15. The Company has not modified its capitalization policy from the prior period.

5. The Company regularly performs various valuation procedures with respect to its investments, including reviewing each fixed maturity security in an unrealized loss position to assess whether the security is a candidate for credit loss. Specifically, the Company, with the assistance of a third-party investment manager, considers credit rating, market price, and issuer specific financial information, among other factors, to assess the likelihood of collection of all principal and interest as contractually due. Securities for which the Company determines that a credit loss is likely are subjected to further analysis to estimate the credit loss to be recognized in earnings, if any. Upon identification of such securities and periodically thereafter, a detailed review is performed to determine whether the decline is considered other than temporary.

The factors considered in reaching the conclusion that a decline below cost is other than temporary include among others, whether:

- a. the issuer is in financial distress;
- b. the investment is secured;
- c. a significant credit rating action occurred;
- d. scheduled interest payments were delayed or missed;
- e. change in laws or regulations have affected an issuer or industry;
- f. the investment has an unrealized loss and was identified by our investment manager as an investment to be sold before recovery or maturity; and
- g. the investment failed cash flow projection testing to determine if anticipated principal and interest payments will be realized.

I. Changes in Special Surplus Funds

In the fourth quarter of 2017, ICC sold all of its real estate, including the Home Office, to its parent, ICCH. The Company recognized a gain of approximately \$1 million from this sale. As the sale included a subsequent lease-back agreement for the Home Office, the gain was booked directly to a special surplus account and was being amortized over a five-year period. In May 2021, ICCH sold the Home Office back to ICC as referenced in note 10B. As a result of this sale, ICC reclassed the remaining balance of unamortized special surplus to unassigned surplus.
