

### ICC Holdings, Inc. Reports 2019 Fourth Quarter and Twelve Months Results

March 3, 2020

ROCK ISLAND, III., March 2, 2020 /PRNewswire/ -- ICC Holdings, Inc. (NASDAQ: ICCH) (the Company), parent company of Illinois Casualty Company, a regional, multi-line property and casualty insurance company focusing exclusively on the food and beverage industry, today reported preliminary, unaudited results for the fourth quarter and twelve months ended December 31, 2019.

#### FOURTH QUARTER AND TWELVE MONTHS ENDED DECEMBER 31, 2019 - FINANCIAL RESULTS

Net earnings totaled \$3,577,000 or \$1.19 per share for the fourth quarter of 2019, compared to net earnings of \$635,000 or \$0.21 per share for the fourth quarter of 2018. For the twelve months ended December 31, 2019, the Company reported net earnings of \$4,294,000 or \$1.43 per share, compared to \$893,000 or \$0.29 per share for the same period in 2018. Additionally, book value per share increased 13.6% to \$20.13 at December 31, 2019, from \$17.72 at December 31, 2018.

Direct premiums written grew by \$90,000, or 0.6%, to \$14,633,000 for the fourth quarter of 2019 from \$14,543,000 for the same period in 2018. For the twelve months ended December 31, 2019, direct premiums written grew by \$1,858,000, or 3.0%, to \$62,983,000 from \$61,125,000 for the same period in 2018. Net premiums earned grew by 11.7% to \$13,622,000 for the fourth quarter of 2019 from \$12,197,000 for the same period in 2018. Net premiums earned grew by 12.2% to \$52,842,000 for the twelve months ended December 31, 2019, from \$47,117,000 for the same period in 2018.

For the fourth quarter of 2019, the Company ceded to reinsurers \$2,260,000 of earned premiums, compared to \$2,811,000 of earned premiums for the fourth quarter of 2018. For the twelve months ended December 31, 2019, the Company ceded \$9,925,000 of earned premiums to reinsurers compared to \$10,759,000 of earned premiums for the same period in 2018.

Net realized investment gains including other-than-temporary impairment losses were \$460,000 compared to losses of \$127,000 for the fourth quarter of 2019 and 2018, respectively. For the twelve months ended December 31, 2019, net realized investment gains net of other-than-temporary impairment losses, increased by \$241,000 to \$1,201,000 from \$960,000 for the same period in 2018.

Net investment income increased by \$12,000, or 1.6%, to \$778,000 for the fourth quarter of 2019, as compared to \$766,000 for the same period in 2018. For the twelve months ended December 31, 2019, net investment income grew \$295,000, or 10.2% to \$3,185,000 from \$2,890,000 for the same period in 2018. The growth in net investment income for the twelve months ended December 31, 2019, was driven by increased book yield and an increase in net asset value for much of the period.

Losses and settlement expenses decreased by \$1,267,000, or 18.5%, to \$5,597,000 for the fourth quarter of 2019, from \$6,864,000 for the same period in 2018. The primary diver was a significant decrease in claims reported in the fourth quarter of 2019. Losses and settlement expenses increased by \$2,453,000, or 7.8% to \$33,715,000 for the twelve months ended December 31, 2019, from \$31,262,000 for the same period in 2018. Losses and settlement expenses increased for the twelve months ended December 31, 2019, primarily due to an increase in weather-related property losses.

Policy acquisition costs and other operating expenses increased by \$352,000, or 6.9%, to \$5,478,000 for the fourth quarter of 2019 from \$5,126,000 for the same period in 2018. Policy acquisition costs and other operating expenses increased by \$1,805,000, or 9.9%, to \$20,020,000 for the twelve months ended December 31, 2019, from \$18,215,000 for the same period in 2018. The primary drivers include restructured 2019 reinsurance contracts to eliminate all ceding commissions on primary excess of loss contracts and increased health care costs. The reinsurance change increases the Company's overall net earned premiums by the same amount as the decrease in ceding commission.

Total assets increased by 8.4% from \$150,283,000 at December 31, 2018, to \$162,964,000 at December 31, 2019. Our investment portfolio, which consists of fixed maturity securities, common stocks, property held for investment, and other invested assets, increased by 6.9% from \$104,565,000 at December 31, 2018, to \$111,768,000 at December 31, 2019.

#### FOURTH QUARTER AND TWELVE MONTHS ENDED DECEMBER 31, 2019 - FINANCIAL RATIOS

The Company's losses and settlement expense ratio (defined as losses and settlement expenses divided by net premiums earned) was 41.1% and 63.8% in the fourth quarter and twelve months ended December 31, 2019, respectively, compared with 56.3% and 66.3% in the same periods of 2018,

respectively.

The expense ratio (defined as the amortization of deferred policy acquisition costs and underwriting and administrative expenses divided by net premiums earned) was 40.2% and 37.9% in the fourth quarter and twelve months ended December 31, 2019, respectively, compared to 42.0% and 38.7% in the same periods of 2018, respectively.

The Company's GAAP combined ratio (defined as the sum of the losses and settlement expense ratio and the expense ratio) was 81.3% and 101.7% in the fourth quarter and twelve months ended December 31, 2019, respectively, compared to 98.3% and 105.0% in the same periods of 2018, respectively.

#### **MANAGEMENT COMMENTARY**

"Calendar year 2019 began with substantial property losses from the Polar Vortex. This had a significant adverse impact on results in Q1. However, as is often the case, the fourth quarter provided a strong finish. This quarter, the Company recognized its best combined ratio in my tenure as CEO, at 81.3%. I am very pleased to see implemented underwriting measures taking hold. As stated in previous releases, the Company has been focused on targeted premium rate increases and exposure reductions. All lines of business other than property produced an underwriting gain during 2019. The Company continues to produce positive year-to-date earnings per share, along with strong growth in book value per share. Book value per share rose to a new high, ending 2019 above \$20 per share. The Company's topline growth slowed year over year as we emphasized profitable renewal business and rate strengthening rather than chasing underpriced new business. I anticipate the impact of our initiatives will continue to produce positive trends.

"The Company continues to position itself for future geographic expansion by developing distribution channels for the next state of Arizona. We anticipate writing business there in the first half of 2021.

"We continue to refine the underwriting process and identify areas for expense reduction moving toward the ultimate goal of consistent underwriting profit. Overall, I am pleased to see the positive movement in the fourth quarter and the opportunities going forward for ICCH," stated Arron Sutherland, President and Chief Executive Officer.
