Notes to the Financial Statements

1. Summary of Significant Accounting Policies and Going Concern

A. Accounting Practices

The financial statements of Illinois Casualty Company are presented on the basis of accounting practices prescribed or permitted by the Illinois Department of Insurance.

The Illinois Department of Insurance recognizes only statutory accounting practices prescribed or permitted by the State of Illinois for determining and reporting the financial condition and results of operations of an insurance company, and for determining its solvency under the Illinois Insurance Law. The National Association of Insurance Commissioners' (NAIC) *Accounting Practices and Procedures Manual* (NAIC SAP) has been adopted as a component of prescribed or permitted practices by the State of Illinois.

B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with NAIC SAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

C. Accounting Policy

Premiums are earned over the terms of the related insurance policies and reinsurance contracts. Unearned premium reserves are established to cover the unexpired portion of premiums written. Such reserves are computed by pro rata methods for direct business and are based on reports sent to the Company's reinsurance companies.

Expenses incurred in connection with acquiring new insurance business, including such acquisition costs as sale commissions, are charged to operations as incurred. Expenses incurred are reduced for ceding allowances received or receivable.

The Company maintains an investment in properties held for the production of income. The properties are presented at cost, less accumulated depreciation, and are depreciated for financial statement purposes for a period based on their economic life.

The Company carries other loan receivables at cost.

In addition, the Company uses the following accounting policies:

- (1) Short-term money market investments are stated at fair value. Short-term bond investments are stated at amortized cost.
- (2) Bonds with a NAIC rating 1 and 2 are stated at amortized cost using the interest method; all others are stated at the lower of amortized cost or fair value. For residential mortgage-backed securities (RMBS), commercial mortgage-backed securities (CMBS) and loan-backed and structured securities (LBASS), the NAIC has retained third-party investment management firms to assist in the determination of the appropriate NAIC designations and Book Adjusted Carrying Values based not only on the probability of loss, but also the severity of loss. Those RMBS, CMBS and LBASS securities that are not modeled but receive a current year Acceptable Rating Organizations (ARO) rating are subject to the Modified FE process which determines the appropriate NAIC designations and Book Adjusted Carrying Values.
- (3) Common stocks, exchange trade funds, other than investments in stocks of subsidiary and unaffiliated companies, are stated at fair value.
- (4) Investment grade redeemable preferred stocks are stated at amortized cost, others are carried at market.
- (5) The Company does not participate in mortgage loans as an investment vehicle.
- (6) Loan-backed securities are stated at either amortized cost or the lower of amortized cost or fair value. The retrospective adjustment method is used to value those securities. Intercompany loans are stated at book value.
- (7) The Company carries the intercompany collateralized note receivable at book value.
- (8) The Company does not have any investments in any joint ventures, partnerships, or limited liability companies.
- (9) The Company does not utilize derivatives as an investment vehicle.
- (10) The Company does not factor anticipated investment income into the premium deficiency reserve.
- (11) Unpaid losses and loss adjustment expenses include an amount determined from individual case estimates and loss reports and an amount, based on past experience, for losses incurred but not reported. Such liabilities are necessarily based on assumptions and estimates and while management believes the amount is adequate, the ultimate liability may be in excess of or less than the amount provided. The methods for making such estimates and for establishing the resulting liability are continually reviewed and any adjustments are reflected in the period determined.
- (12) The Company has not modified its capitalization policy from the prior period.
- (13) Pharmaceutical rebate receivables - Not Applicable

D. Loan-Backed Securities

(1) Prepayment assumptions for Agency Mortgage-Backed Securities and Collateralized Mortgage Obligations were generated using a third-party prepayment model. The multi-factor model captures house price change trends, housing turnover, borrower default, and refinance incentive, among other factors. On an ongoing basis and with the assistance of a third-party investment manager, we monitor the rate of prepayment and calibrate the model to reflect actual experience, market factors, and viewpoint.

(2) Loan-backed and structured securities with a recognized other-than-temporary impairment (OTTI) - Not Applicable

(3) Securities held that were other-than-temporarily impaired due to the present value of cash flows expected to be collected was less than the amortized cost of securities - Not Applicable

(4) All impaired securities for which an OTTI has not been recognized in earnings as a realized loss

a. The aggregate amount of unrealized losses:

1. Less than 12 months.....	\$.....(1,323,696)
2. 12 months or longer.....	(1,700,288)

b. The aggregate related fair value of securities with unrealized losses:

1. Less than 12 months.....	\$..... 20,067,768
2. 12 months or longer.....	12,611,995

(5) The Company regularly performs various valuation procedures with respect to its investments, including reviewing each fixed maturity security in an unrealized loss position to assess whether the security is a candidate for credit loss. Specifically, the Company, with the assistance of a third-party investment manager, considers credit rating, market price, and issuer specific financial information, among other factors, to assess the likelihood of collection of all principal and interest as contractually due. Securities for which the Company determines that a credit loss is likely are subjected to further analysis to estimate the credit loss to be recognized in earnings, if any. Upon identification of such securities and periodically thereafter, a detailed review is performed to determine whether the decline is considered other than temporary.

The factors considered in reaching the conclusion that a decline below cost is other than temporary include among others, whether:

a. the issuer is in financial distress;

b. the investment is secured;

c. a significant credit rating action occurred;

d. scheduled interest payments were delayed or missed;

e. change in laws or regulations have affected an issuer or industry;

f. the investment has an unrealized loss and was identified by our investment manager as an investment to be sold before recovery or maturity; and

g. the investment failed cash flow projection testing to determine if anticipated principal and interest payments will be realized.

The securities listed in the above tables are not deemed to be other-than-temporarily impaired.

2. The definition of allocated loss adjustment expenses (ALAE) and, therefore, unallocated loss adjustment expenses (ULAE) was changed effective January 1, 1998. This change in definition applies to both paid and unpaid expenses. Are these expenses (now reported as "Defense and Cost Containment" and "Adjusting and Other") reported in compliance with these definitions in this statement?..... YES.....
3. The Adjusting and Other expense payments and reserves should be allocated to the years in which the losses were incurred based on the number of claims reported, closed and outstanding in those years. For reinsurers, Adjusting and Other expense assumed should be reported according to the reinsurance contract.
